45 years

EMPLOYMENT HISTORY

- September 2024 - till April 2025 **Programmer**, *Arista Network*, Warsaw, Networking protocols, Automatic certification agent.
Skills : C++, networking, Python, Testing, Design Patterns, Data Structures
- May 2023 - September 2024 **Engine/Graphic Programmer**, *QLOC*, Warsaw, Working on Gotham Knights Game Pass PC
- Fixing rendering problems (LOD Bias Corrections, crashes etc.)
Skills : C++, Rendering, 3D algorithms, Python, Testing, Design Patterns, Data Structures, Unreal Engine 4/5
- March 2022 - May 2023 **Engine/Graphic Programmer**, *Sperasoft*, Warsaw, Working on Mortal Combat Mobile, Injustice2 Mobile - Bug fixing, Engine programming. Mainly rendering (UE4, RenderDoc, Metal). Working on transition from UE4.19 to UE4.27. Improving Store interface.
Skills : C++, Rendering, 3D algorithms, Python, Testing, Design Patterns, Data Structures, Unreal Engine 4/5
- September 2017-June 2020 **Developer R&D**, *Dwarf Animation Studio*, Montpellier, Working on Lumiere - Software for photorealistic rendering. Raytracing (refraction, reflection , motion blur). Writing and integrating shaders (Marschner Hair and others). Embree library integration. Debugging and bug fixing.
Skills : C++, 3D algorithms, Photorealistic rendering, Mathematics, Research, Testing, Design Patterns, Data Structures
- September 2015-Janvier 2017 **Developer R&D**, *Isotropix*, Montpellier, Working on Clarisse - rendering software (<http://www.isotropix.com/clarisse>). Loading and saving images in exr format using OpenExr library directly. Handling Color Space in Clarisse (OCIO). Rendering tasks: Implementation of the article "Fast Random Sampling of Triangular Meshes" for point cloud geometry. Developed physically based lights. Debugging and bug fixing.
Skills : C++, 3D algorithms, Photorealistic rendering, Mathematics, Research, Testing, Design Patterns, Data Structures
- September 2013-April 2014 **Developer R&D**, *KA-RA*, implementation of the global illumination method (Reflective Shadow Maps). Engine development (Unigine). Shaders, GPU programming
Skills : C++, 3D algorithms, Rendering, Mathematics, Research, Testing, Design Patterns, Data Structures, Unigine
- March 2008-October 2008 **Gameplay programmer** , *Climax*, Portsmouth, UK, Overlord on Wii
Skills : C++, 3D algorithms, Photorealistic rendering, Mathematics, Testing, Design Patterns, Data Structures
- September 2006-January 2008 **Gameplay programmer**, *Rebellion*, Oxford, UK, (Harry Potter order of Pheonix on PSP, Simpsons on PSP)
Skills : C++, 3D algorithms, Photorealistic rendering, Mathematics, Testing, Design Patterns, Data Structures
- January 2005-January 2006 **Programer**, *Uniwersytet Warszawski*, Implementation of the test system for the research of P.h.D student Konrad Jankowski in psychology.
Turbo Pascal, Testing, Data Structures

Formation

- 2009–2014 **Ph.D**, *University of Blaise-Pascal*, Clermont Ferrand, Animation with voxel based global illumination
Written but not defended
- 1999–2005 **Master of mathematics**, *Uniwersytet Warszawski*, Warszawa, (grade A)
Finite models of arithmetic
- 1999–2003 **Licence of computer science**, *Uniwersytet Warszawski*, Warszawa, (grade B)
- 1999 **Bachelor degree (specialty in mathematics)**, *Liceum Stanisława Staszica*, Warszawa, (grade A)
- 1999 **Third prize**, *Polish Mathematical Competition*, Warszawa, (place 8-10)
- Driving licence**

Skills

- Programing GPU programing, Unreal Engine, RenderDoc, PIX, IOS/Android, image processing, C, C++
(boost, stl), Python, OpenGL (3.0+), GLSL (glm), DirectX, wxWidgets, Qt
- Software VisualStudio, CMake, Blender, Sketchup, TortoiseSVN, Git, Docker, $\text{\LaTeX}$, Linux, Windows
- Languages Polish first language, French fluent, English fluent

Publications and teaching

- 2011 I was involved in the preparations of the course "Computer graphic" of Rémy Malgouyres (coding and helping students, Master one).
- 2010 I published the article - "Animation in voxel-based global illumination" AFIG 2010 Dijon
- octobre 2010 I presented in the workshop (*travail rendu et visualisation*) summary of the article "Animation in Voxel-based Global Illumination"

Hobbies

- Climbing I used to climb for around 10 years.
- Chess I played in tournaments.
- Box, Muay thai My passion recently.
- Skydiving From time to time.
- Travelling I like to travel and love to see new places.
